**SUBJECT:** Food Package Changes

**Information- X**

Policy-  
Action-

Routine (email and hard copy) - X  
Urgent (fax and hard copy)-

Food packages for exclusively breastfed infants have been updated with the correct infant meat names on the warrant. Additionally on-site food instruments will have the infant meat on separate warrants. This will also help stores experiencing "Not To Exceed" amounts when women purchase infant meats along with the infant fruits, vegetables and cereal with the old warrant.

Once the food packages have been updated on your server, you should be able to select the new food packages from the updated Food Package Viewer and from the drop down "Pkg No" box in AKWIC. Updates should occur over the weekend of September 18th. Once the updates occur, the old food package numbers for these two packages **will no longer be available**.

Updated "cheat sheets" are attached.
